*Announcing a Conference*

*to celebrate the 65th year of*

# Thomas F. Banchoff:
## A Man of Many Dimensions

*To be held in Providence, RI*

*October 31st and
November 1st, 2003*

Topics for discussion will include:

- *Flatland* and Edwin A. Abbott
- Education and technology
- Polyhedral geometry
- Mathematics and art
- Tight and taut embeddings
- Characteristic classes

Other highlights of the meeting:

- A presentation of rare books at the John Hay Library
- A Friday night reception
- An exhibit of mathematical art
- A Mass at Manning Chapel
- A Saturday night banquet

The website `http://www.math.brown.edu/TFBCON2003` is evolving to commemorate the event, to allow participation by those unable to attend in person, and to provide program details.
